## **Important Information**

### Configuration file called Star.Payroll.GUI.exe.Config

This configuration file is found under the Program Directory shown under Help\Paths and Files, this is on each workstation running IPP.

As part of the update, this file has been updated and will replace your existing file, if you have any custom settings you will need to back up the existing file before installing the update. These custom settings include:

- Specific setting for Access drivers
- Specific settings for SQL drivers
- vPA settings
- Or any other custom settings

After installing the update edit the new configuration file in Notepad and copy any custom settings from your old configuration file to the new configuration file.

## **Program Changes**

#### **Employee Validation**

From tax year 2023/24, we have made improvements to the employee validation performed for NI Letters, Working in a Freeport, Veterans, Age Checks, National Minimum and Living wage reminders.

The validation messages have been reduced and simplified, allowing for flexibility when taking over a payroll to parallel run or re-running from the start of the tax year with new employee records. Additionally, the process of making changes to employee NI letters when running the payroll early has been made easier.

#### Prior to this update

The following areas used today's date for validation:

- New Employee Wizard\Employee Payroll Details NI Details section
- Employee (Edit)\NI tab (without the Open Run tab selected) Main NI Letter section
- Employee Import NI Settings section

The following areas use the start and end of the current tax year for validation:

- New Employee Wizard\Employee Brought Forward NIC Totals
- Employee (Edit)\NI tab Add
- Employee Import BF NIC Figures section

The following areas use the Pay Date for the Open run for validation:

- Employee (Edit)\NI tab (with the Open Run tab selected) Main NI Letter section
- Individual Calculation Calculate
- Calculate All
- Employee (Edit)\NI tab Back Date

#### From this update for tax year 2023/24 onwards

The following areas will use the start and end of the current tax year for validation:

- New Employee Wizard\Employee Payroll Details NI Details section
- New Employee Wizard\Employee Brought Forward NIC Totals
- Employee (Edit)\NI tab Main NI Letter section
- Employee (Edit)\NI tab Add
- Employee Import NI Settings section
- Employee Import BF NIC Figures section

The following areas will continue to use the Pay Date for the Open run for validation:

- Individual Calculation Calculate
- Calculate All
- Employee (Edit)\NI tab Back Date

#### **Employee Import**

When importing employees, from tax year 2023/24 onwards, where the import file includes the sections NI Settings and/or BF NIC Figures, the validation messages will no longer appear during the import process they will now appear in the Import Validation and Import Progress screens under the column Notes:

The **Cancel** button has been replaced with **Done** button, and the **File Location** column has been removed and replaced with **Data File** column.

#### **Employee Details**

When a Client is opted in to EVC, an EVC tab becomes available under Employee Details:

 Do not send data to EVC – if an employee requests for their data to not be sent to EVC, then tick the box. • **Delete Data Held On EVC** – if the employee has requested for their data to be deleted from EVC, select this button, the following message appears:

Payroll P	rofessional	$\times$
?	Delete data held on EVC. All data currently held on EVC for this employee will be deleted. The employee will also be opted out from future EVC submissions. Are you sure you want to continue?	
	Yes No	

The message informs you that this process will also tick the box **Do not send data to EVC**.

To continue to delete the employees data from EVC click Yes. A progress bar is then shown:

2 sec taken / 11 sec remaining

#### P11D Car Import, P11D General Expenses - Validation

Both of these imports will now only import the information for employees where their Employment Status is either Higher Paid, Director Cum and Director Non Cum, this is the same validation performed when entering these records manually under the Benefits In Kind tab in the P11D Employee (Edit) screen.

#### **Custom Reporting**

When adding or editing reports via **Reporting\Custom Report Management** you are now be able to see new fields added to the tables within the report(s) so that you can include them in your report.

## Employer Details\Address tab

The tabbing order under this form has been changed so that it follows the order that the fields appear in the screen:

## **Fixes**

Web ID	Area	Description of bug
2023005	Reports	For a director who has changed NI letter during the tax year and have earnt at or above the LEL. Where the earnings for the first NI letter is under the LEL when generating P60s a message appears that the NI information is being merged and to check the results. Currently the NI Letter and bands are not being shown on the P60.
2023004	Reports	PARNSL\PSRNSL - Number of employees is showing 1 when there are no records.
2023003	Reports	The Datagraphic P60s for 2022/23 (PAKP6023\PSKP6023\PAEP6023\PSEP6023) are printing the SPBP field in a different location to the stationery.
2023002	Miscellaneous	Since EOY 2023 update, when Privileges for the Employee Details\EVC tab is set as None and the Employer is Opted out of EVC or the Employee record is a Sub contractor, when you Edit an Employee record an error occurs 'Error - The given key was not present in the dictionary.'
2022036	Calculations	From tax year 2022/23 the National Minimum and Living Wage messages are not appearing for age 21 when you calculate the employee, for Next period and Current period.
2022030	Miscellaneous	Print Payrolls List - an error occurs when running this facility if you have a data file with P11D enabled and at least one employee record has the OffPayrollWorker field as Null rather than True\False.
2022028	Internet Downloads & Submissions	FPS YTD - If an employee is marked as a leaver and their leaver information is marked by a user as Submitted, which means their final leaver details are not included in an FPS, when creating an FPS YTD submission for the employee it fails validation for the leave date.
2021020	Internet Downloads & Submissions	DPS Applying Tax Codes - where an employee has Are foreign tax credits allowed ticked and under Employer Details\Expat tab the setting under Foreign Tax Credits called Automatically update Expat UK Tax YTD is unticked, when you try to apply a tax code with previous employment via the HMRC Notification Application Wizard the following error may occur 'Error - Conversion from string "123" to type 'Integer' is not valid.
	Automatic Enrolment Dashboard	With the payroll set up to Email notices when creating the notices some users experienced a can't locate Mimekit error.
